BROWN-OWEN LOSES

IN TECHNICAL RULING

Liquor Firm's Plea to Drop Application for Permit Held Improper in Form.

Post-Dispatch Bureau, 201-205 Kellogg Bldg. WASHINGTON, April 15, - The Federal Alcohol Administration ruled today that the application of Brown-Owen, Inc., St. Louis liquor dealers, to withdraw their petitions for a hearing and for a Federal wholesale liquor dealer's permit was not in proper form and notified State Senator Michael Kinney, the Brown-Owen attorney, that unless a proper application is made within 10 days the Administration would proceed with a hearing looking to the denial of the application for a permit.

The Administration's action was a technical legal procedure and will not prevent the sale of the Brown Owen business before July 1, when all wholesale liquor dealers must have a Federal permit. Kinney has told the Administration that the St. Louis liquor dealers had received "several flattering offers" for their business.

A hearing was scheduled for today on the license application but the Brown-Owen notice of withdrawal canceled #. Attorney-General Otto Kerner was unopposed for renomination.

Knox's strong lead in Chicago, where he ran some 79,000 votes where he ran some 79,000 votes ahead of Borah, insured that he would have the popular endorsement in the 10 Chicago districts, along with the organization support.

Big Democratic Gain.

The Democratic party cast a greater primary vote than ever before in the State's history, rolling up a total estimated at 1,500,000.

Race for Auditor.

The Auditor race was between State Senator Earl B. Searcy of Springfield and Arthur J. Bidwill River Forest. Bidwill led with 162,120 votes from 4700 precincts; Searcy had 131,849. Five others in the race apparently had no chance. John T. Dempsey of Chicago and Rodney Orandon of Batavia led for the two Congressmen at Large places to be filled in a field of four with 2645 precincts in. Dempsey had 108,360; Brandon, 93,916; Robert McCormick Adams of Chicago, 88,877, and W. E. Wright of Jacksonville, 86,246.

Three candidates were running close with 4655 precincts reported for Lieutenant-Governor. They were George Hatzenbuhler of Bloomington, James A. McCallum of Chicago and John V. Clinnin of Glencoe .The figures: Hatzenbuhler, 118,829; Mc-Callum, 112,571, and Clinnin, 139,330. Three others appeared to be out of

the running.
Clarence F. Buck of Monmouth swamped five rivals for the Treasurer nomination with 4644 precincts counted. His vote at that stage was 225,246, while his nearest competitor, Joseph L. Moore of Cham-paign, had 50,882. Trailing were Edward E. Miller of East St. Louis with 50,860; Anton J. Johnson of Macomb, 52,895; Francis A. Horrigan of Chicago, 32,419; and Deneen A. Watson of Elmhurst, 25,036. Stratton Wins Easily.

The count in 4608 precincts gave William J. Stratton, 343,910 against the 143,999 polled by his only op-ponent, Mayor John W. Kapp Jr., of Springfield, in the race for Secretary of State.

Charles W. Hadley of Wheaton held a small margin for Attorney-General with 2714 precints counted. Hadley had 117,538. Thomas V. Sullivan of Chicago, candidate supported by former Mayor William Hale Thompson, was second with 101,621. Berthold A. Cronson, Chicago Alderman, was far back with 29,030.

Congressional Contests. Incumbent Congressmen - both Democratic and Republican-appeared assured of nomination to-day. Returns from downstate districts were slow, counting being handicapped by the tremendous vote on the State ticket.

Mrs. Bertha Baur, Republican Miss. Bertha Baur, Republican National Committeewoman, was rolling up a 10 to 1 lead over her four male opponents in Chicago's Ninth District. With returns from 44 of the 180 precincts compiled, she had 3136 votes to 393 for her nearest opponent, Thomas Hart-

In the 12th District, scene of a fight for both parties, fragmentary returns showed B. J. Knightan Rockford, leading Fred W. Dahlmeier, also of Rockford, for the Democratic nomination. On the Republican side, State Senator Noah M. Mason of Oglesby was only a few votes behind Mayor C. Henry Bloom of Rockford.

Chicago's 4th District appeared likely to nominate a woman as its Republican candidate. Mrs. Irene Tomas, on the basis of more than half the precincts, would receive more votes than her two male opponents combined.

A tight race appeared likely in the 11th where Carl P. Lies of Au-rora and John R. Barber, Jollet, sought the Democratic nomination. Barber had a lead of slightly more than 200 votes from fragmentary returns from Kane and Will Coun-

JURY SELECTED IN FLOGGING TRIAL OF EX-POLICEMEN

Defense in Questioning Gives Lecture on Communism and Protecting Constitution.

SEDITION POINT IS DWELLED ON

Counsel for Tampa Men Indicates He Will Defend Acts as Legal Under Florida Statute.

By a Staff Correspondent of the Post-Dispatch.

BARTOW, Fla., April 15.—A sixman jury was chosen for the first of Florida's flogging trials at 10:35 oclock this morning, after several veniremen had been questioned about "Communism" and "Ameri-The jury was sworn in at 10:50.

The jury consists of G. A. Walker, 60 years old, PWA worker; Earl Turner, 29, dragline operator; J. R. Duggan, 62, locomotive engineer; S. T. Williams, 58, stove repairer; Victor C. Hall, 27, machinist; W. M. Lohr, 55, mechanic. All except Turner are married.

Selection of the jury was ac-complished with the defense using only one of its 35 peremptory challenges and the State four. When the defense accepted the panel, several of the defendants ob-

viously excited, half rose from their Only a dozen spectators The Constitution of the United States was the paramount subject of discussion during the process of selecting jurors for the first of

Hint of "Legal" Defense. Intimation that the defense might excuse the activities of the raiding party as legal was introduced by Whitaker pointing out that "sedi tion" is a felony in Florida and that it is the duty of police officers to arrest persons whom they believe to be committing a felony, even

without warrants. "If you believed Communism a felony under the statutes of Florida, would you consider that?" he would ask, then would admonish veniremen to weigh testimony of State's witness to determine wheth-er they had previously made con-

tradictory statements.

His allusion to "sedition" was based on a statute enacted during Civil War reconstruction days and amplified during the spy hysteria attendant to the World War. The original statute, which remains in force, states:

force, states:

"If any person shall excite an insurrection or sedition amongst any portion or class of the population of this State or shall attempt by writing, speaking or by any other means to invite such insurrection or sedition the person of persons to or sedition the person or persons so offending shall be punished by im-prisonment in the State prison not exceeding 20 years."

It was enacted Jan. 15, 1866.

May Not Use Witnesses. The trend of defense interroga-tion also indicated that they might not put on any of their 54 witnesses. Prospective jurors were uniformly asked if such a proced-ure would influence them, were told it is the duty of the State to prove guilt, beyond a reasonable doubt. IMADISON COUNTY FOR HORNER BY 7242

Complete Returns Give Brooks 989 Majority and Borah 1866 Over Knox.

Gov. Horner of Illinois scored mashing victory in Madison County over his Chicago opponent Dr. Herman N. Bundesen, in the race for the Democratic nomination for Governor, polling 13,168 votes o 5926 for his opponent in the primary election vesterday, on the basis of complete returns for the county's 91 precincts.

In the presidential race, on the Republican ticket, Senator William E. Borah ran ahead of Frank Knox, Chicago publisher, 6176 to 4310, on complete returns.

For the Republican nomination for Governor, C. Wayland Brooks won substantially over Len Small, 5551 to 4562, with the six other candidates trailing far behind. Former United States Senator Otis F. Glenn, with 5448 votes, outstripped his nearest opponent. William E. Hull, who had 2501, in the race for the Republican nomination for United States Senator.

James Hamilton Lewis, Demo cratic United States Senator, won

JEFFERSON CITY, April 15. -Attorney-General McKittrick filed an ouster suit in the Missouri Supreme Court today against four motion picture distributing companies, charging violation of the State anti-trust laws in an alleged tion picture films for exhibition at the Ambassador, Missouri and New Grand Central theaters in St. Louis. The four companies named as defendants are General Theatrical Enterprises, Inc., Vitagraph, Inc., Paramount Pictures Distributing Co., Inc., R-K-O Distributing Cor-

Injunction Also Asked For. Later today the Attorney-General filed an injunction suit in Circuit Court at St. Louis to prevent the withholding of films from the three theaters. This action also asked that the defendants be restrained from removing pertinent record and account books from Missouri or from entering into contracts in relation to the situation.

This case was assigned to Circuit Judge John W. Joynt, who issued a temporary restraining order returnable April 30.

The allegations were similar to those of the ouster suit and those of a pending injunction suit brought by the Federal Government. Defendants included the four concerns sued in the ouster case and the following corporations: Warner Bros. Pictures, Inc.; Vitaphone Corporation; First National Pictures, Inc.; Warner Bros. Circuit Management Corporation and Paramount Pictures Distributing Corporation. Except for the R-K-O concern and the two Para-mount concerns all the defendants ar epart of the Warner Bros. syn-

The Attorney-General's actions grew out of alleged moves by Warner Bros. to gain control of the three theaters.

The ouster petition charged the alleged conspiracy to refuse to furnish pictures was "for the purpose of opposing and preventing the establishment or continuation of the motion picture exhibition business at the Ambassador, Missouri and New Grand Central theaters by any person or corporation except War-ner Bros. Pictures, Inc., or a corporation affiliated with or control

General Theatrical Enterprises Inc., is the only company of the four defendants organized under the laws of Missouri. The other three were organized in other states but hold foreign corporation licenses to do business in Missouri.

The Attorney-General asked th Court to declare forfeit the charters of Missouri licenses of the four de fendants, and to exclude them from

Restraint of Trade Alleged.

The petition charged that the four companies, between July, 1932, participated in a pool, trust, agree ment and combination "which tends to and does result in the restraint competition in the importation transportation, purchase and sale of and trading in motion picture

It was further charged that the alleged conspiracy was designed to regulate and fix the prices of films, and the amount and quality of films bought, sold and distributed

The first count of the petition in volved the alleged refusal to furnish films to the Ambassador, Missour and New Grand Central Theaters.
A second count involved an alleged arbitrary grouping and zoning of "first-run" pictures in Kansas City. It was charged that under this agreement priority in "first-run" film service was given to the Fox Midwest Theaters, Inc., which controls 12 Kansas City motion picture

For several years prior to 1934, the petition stated, the operators of the Ambassador, Missouri and New Grand Central had obtained motion picture films from the defendants and affiliated companies. Subsequently foreclosure proceedings were instituted in Federal Court in St. Louis, after a default on mortgages on the three theaters.

Warners' Bid Rejected.

A Bondholders' Committee asked for bids on leasing of the three theaters, as part of a reorganization plan. A bid by Warner Bros. Pictures, Inc., was rejected, according to the petition, and the Bond-holders' Committee entered into a contract with other operators, for leasing of the theaters, in February, 1934. Warner Bros. opposed the re-organization plan in Federal Court, it was said, but the objections were

"Up to the time of the rejection of the offer of Warner Bros. Pic-tures, Inc., and the acceptance of an offer from other parties for the leasing of the theaters," the petition stated, "the motion pictures sold and distributed by Warner Bros. Pictures, Inc., and First National Pictures, Inc., distributed by re-spondent Vitagraph, Inc., had been for a number of years and were still being furnished to and exhibited at the Ambassador and Missouri Theaters."

Defendants' Refusal Alleged. It was charged that, in execution

Declined to Testify at Habeas Corpus Hearing She Gave Birth to Baby—Amazing Story of Being Alone at Time.

Tipton Muench, wife of Dr. Ludwig as having been born to his wife. O. Muench, gave birth to a baby shortly before she went to trial last autumn in the Kelley kidnaping case at Mexico, Mo., bobbed up here main reliance of the red-

Weighing the defense testimony thus far offered in the trial in Circuit Court here of the Muenches and Wilfred Jones and Mrs. Helen Berroyer on charges of having con-spired unlawfully to transfer custody of two babies to the Muenches without the approval of the Juve-nile Court of St. Louis, it is appar-ent that at least three of the defendants are trusting their fate to the incredible, and once disproved, of Mrs. Muench that at the age of 44, and after 23 years of childless married life, she became

Thus the testimony that Mrs. Muench, with many dramatic sidelights, gave in her own behalf becomes of paramount importance to all the defendants.

The circumstances offer only a partial explanation of why it was that Mrs. Muench cast aside the fear that guided her in the Court of Appeals hearing and made haired star of the great hoax in her defense against a criminal conspiration fact the mother of one of cy charge. the children whose custody was the basis of the criminal charge now being tried. Obviously if she could establish that the baby that was taken from her by the Court of Appeals and given to Anna Ware was her own natural born child the prosecution would fall.

Two Indicted for Perjury.

To some observers it appears that in the habeas corpus case the only thing Mrs. Muench had to lose by not testifying was the custody of a child that was not her own, whereas to have testified there might have subjected her to prosecution on the criminal charge of perjury And, as it happened, two of her fellow respondents, Wilfred Jones and Helen Berroyer, were indicted in St. Louis for perjury as a result of their testimony in the Court of Appeals.

a strong prima facie case when Mrs. Muench took the stand and

> Mrs. Muench's Amazing Story. In her testimony here wrs. Muench declared that the baby to her. Then she gave an amazing account of its alleged birth, saying that she was alone in her bedroom when it came.

"You mean to say you delivered the child yourself?" she was asked on cross-examination.

"I mean to say that nature delivered it, just as nature has de-livered thousands of babies for thousands of mothers," she said in measured and somewhat loud tones.

Then there was the natural ques-tion of why there was no physician in attendance or why she had not gone to a hospital. It was when these pointed questions were put these pointed questions were put that she named a "Dr. Ralph Williams," who was not there to sup-port her statement about him and

As to the hospital, Mrs. Muench said she had wanted to go, but had not made arrangements. "It is not necessary to make such arrange-ments until a few hours before," she explained and at the critical moment did not have time to go.

One of the weirdest bits in her story was about her tryst with Dr. Pitzman the afternoon of Aug. 17. She said, "I was very ill," referring

Pitzman to take me to a hospital. But he wouldn't do it and I drove in my little Ford." The courtroom crowd was immediately alert for the prosecution to ask, "Well, what prevented you from driving to the hospital in your little Ford regardless of Dr. Pitz-man, if you wanted to go there?"

She was not cross-examined on this As she told it, her friend, Helen Berroyer, was the only other person in the house that evening of Aug. 17, although she said she felt labor pains since early morning. telephone for "Dr. Williams," but

"And how long were you without medical attention?" she was asked. "Oh, Dr. Muench and Dr. Williams came almost immediately,"

Doctor Not Named Last Fall. Although there were vague references in the Court of Appeals testimony about another physician having been in the Muench home at 4736 Westminster place the night of the alleged birth, he was not named and did not come forward to testify. Now that he has been given a name by Mrs. Muench, she still has not produced him in the flesh. Even if there were such a person it is apparent from Mrs. Muench's testimony, that he could not consistently say he had seen a baby born to her. Her story has strictly excluded all persons from her presence and left her alone given a name by Mrs. Muench, she her presence and left her alone at the big moment.

Dramatics in the Court. Although the Court has ruled that the finding of the Court of Appeals awarding the baby to Anna Ware as its mother cannot be introduced in this case, nevertheless the fact has been incidentally placed before the jury several times. There is no doubt the jury of Clark County farmers knows what happened to the baby Mrs. Muench now has tes-

tified was her own.

The fact has gone clearly before the jury as an incident of the testimony of several of the witnesses.

To corroborate her story that she was not at Jewish Hospital with the Price baby she offered the same three alibi witnesses who had tes-tified for her in the habeas corpus proceeding. They were Charles Gruet, St. Louis mechanic, a friend of Mrs. Berroyer and her family; Harold Meyers, personal friend of Mrs. Berroye, who has been a boarder at her apartment at 5559 Pershing avenue since last November; her mother, Mrs. Mayme Haw-

5 STOPS_just driving Johnny and Mary to school

4 out of every 5 miles you drive are "STOP-and-Go"

FIRST you stop coming out of your driveway!

Then you stop at a cross-street...stop at a traffic light ... stop for a traffic cop ... stop at the school! That's five stops-just on one of your many daily "errands."

No wonder you average over 30 complete stops a day...shift gears over 60 times a day! And you're eating up gasoline, remember, every time you stop, shift or accelerate.

Shifting gears after a single stop, leading auto-

motive engineers say, can use up enough gasoline to take you 1/3 of a mile. That's costly driving!

For economy, your gasoline needs 3 kinds of power -just as your car needs 3 shifts of gears. You need one power for QUICK STARTS, one for FAST PICKUP and hill climbing, one for STEADY RUNNING.

Super-Shell combines these 3 different kinds of power in one fuel-the first truly balanced gasoline! Super-Shell is sold at over 30,000 neighborly Shell stations from coast to coast.

T took more than just good performance to win over 2,500,000 Ford V-8 fans 1 in less than four years. It's an entirely different kind of performance that did it! It's the V-8 engine, first and foremost. The smoother, quicker flow of its 85 horsepower. Its pick-up and getaway in traffic. Its easy, effortless pull in the open and up the hills. For you can't expect any less modern engine to act or feel like a V-8. And you don't find another V-8 car below \$1645 today.

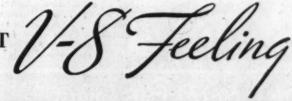

Then there's riding comfort. Ford springbase is 123"-almost a foot longer than wheelbase. You'll quickly feel the edge this gives a Ford on cars near its size and weight. Next, there's a type of chassis in the Ford not found anywhere else in the world today. That's why a Ford "keeps its feet" so remarkably on turns and over rough roads. Why not borrow a car from your Ford Dealer and try these advantages for yourself today? Before you decide on any new car this yearget the "V-8 feel" that won the Ford first place in sales among all cars in 1935!

and See a Show on What You SAVE

Yes, if you don't mind paying around 60¢ for it.

But if 60¢ seems over your budget, don't stay away. You'll have plenty of company on a 35¢ meal here. In fact, that is our average evening meal check right now...which means that hundreds actually spend even less.

Perhaps the keystone of our business is the complete freedom of selection it offers. You pay only for what you like and leave out the courses you don't particularly like - and cut out paying for them.

But note, too, that the foods you like best -expensive foods -are also specially priced. Do you like chicken? Chow mein? A real steak? Look at our Daily "Star Specials". They're planned deliberately to make it just as reasonable to have dinner out, at the Forum, as to serve it at home. And also to give you just what you like—a 25¢ meal?—or a complete 60¢ dinner? - Come on down and "write your own ticket."

o Fractional Vote-Holders to Be Allowed in Convention Here April 27.

Attendance at the Republican vate Convention in St. Louis April will be lessened by nearly 1000, coording to some Republicans, beuse of the failure of the Republican City Committee to provide a meeting place which would permit the selection of double delegations with fractional votes. The convention will meet in the Gold Room at Hotel Jefferson.

In issuing the call for the conittee included a prohibition of nal votes and authorized ch county to send only one delegate for each 500 votes cast for Patterson for United States Senater in 1934. In some years it has been customary for many counties to send double the number of delegates authorized, giving each half vote. This permitted county organizations to reward a large number of party workers with places as delegates.

The total number of delegates in

the convention will be 1050. It was said at Hotel Jefferson that about 2000 persons could be accombers of the State Committee, for editors of Republican newspapers and other party enthusiasts, bringing the total number to about 1500. He more expensive than its treasury and outdistanced him. He

IPLASTERERS' UNION MEN FILE DEMURRER

Workers Attack Indictment in PWA Case as Contractors Had Done Previously.

A demurrer was filed today in Federal Court challenging the indictment returned Feb. 29 against four representatives of the lathers' and plasterers' union, who were charged, with five plastering con-tractors, with conspiracy to defraud the United States by collusion in fixing excessive prices on public works in St. Louis and St. Louis County financed in part by PWA

The demurrer, filed by Attorney William H. Woodward, followed closely a demurrer filed previously on behalf of the five contractors, with these additions:

That the indictment falled to charge that any grant was made of public money of the United States by anyone having authority to make such a grant; the indictment was drawn to deprive the defendants of their liberty without due process of law, in violation of the fifth amendment of the Federal Constitution. and contained language and allegations calculated to prejudice the de-fendants before the Court and jury; which the United States had interest; the indictment failed charge that any other person or association acted upon or was influenced by any of the afleged repre-sentations or threats charged to have been made by the defendants. Language to which the union de-

fendants object, the demurrer stated, was the reference to them in the indictment as the "Big Four." The demurrer added that the indictment attributed certain statements to several of the defendants which, it was complained, had no connection with the alleged conan overt act.

The union defendants are: Harry Hagen, business agent of the Lathers' Union; William Anderson, business agent of the Plasterers' Union, and Irving Lee and his brother, Vincent Lee, members of the Plasterers' Union.

Hearings will be held on both demurrers on dates to be announced.

FISCHER EXPECTS TO PASS UP U. S. OPEN

By the Associated Press.

CINCINNATI, April 15.—Johnny Fischer, the University of Cincinnati law student who ranks as one of the nation's leading amateur golfers now that Lawson Little has left the ranks of the simon-pures, expects to pass up the 1936 National Open title chase.

His studies have given him little time for practice and an important law examination just before the open qualifier will occupy his at-

But Cincinnati golfers, surveying Fischer's record for the last five years, are hopeful the three-times winner of the Western Conference golf title and holder of the national amateur record medal score of 141, will be chosen again as a member of the United States Walker Cup

They figure his grand-average of ball race only two days old, this nament golf since 1931 has been business of playing 13 innings with-out a decision is getting to be quite 25 rounds in 1935, during which he the Western open, won the National Amateur medal with 147 and the Michigan Collegiate title with 289.

LOUISVILLE, Ky., April 15 .-Brevity, the Kentucky Derby favo rite, regained by a sparkling workout today whatever prestige he lost by a slow performance Monday.

The J. E. Widener colt covered a mile in 1:42 3-5, and the manner in which he handled himself brought smiles to the face of Pete Coyne, his trainer. The track was dry and fast except that it was somewhat cut up due to many workouts. The colt was clocked at the quarter in :24 2-5, half in :49 flat, and threequarters in 1:15 flat. Shot Up, a stablemate, worked with Brevity but couldn't keep up and dropped out at the end of three-quarters.

3-POWER MILITARY MEETING IN LONDON

British, French and Belgian General Staffs Begin Defense Consultations.

(Copyright, 1936, by the Associated Press.) LONDON, April 15 .- Officers of the British, French and Belgian general staffs met in London today to draft plans for defensive co-operation in the event of European war. They adjourned late today and will meet again tomorrow.

The British, French and Belgian officers decided to undertake immediately their consultations on practical measures to insure security against any unprovoked aggression despite the absence of Italy, fourth remaining Locarno Power, from

the conference.

The British public has been assured repeatedly by the Government that no new political commitments could arise from the military negotiations.

The general staff conferences were called under the four-Power Locarno accord, reached in London after Reichsfuehrer Adolf Hitler sent troops into the Rhineland no pact, which guaranteed demilitarization of the zone on the eastern borders of France and Belgium. Italy's diplomatic representative also agreed to the general staff contacts, but the Rome governnent, still fighting sanctions against the Ethiopian campaign of conquest, failed to ratify the accord,

Focusing Attention.

To the Editor of the Post-Dispatch: useful purpose because it centered thought upon a long-overdue duty this country owes to the men and women who have toiled long and hard toward its

To the Editor of the Post-Dispatch; TEN fingers around the throats of 60, 000,000 people. And an ugly counter Enemy No. 1 one of the centers of civilization.

Can't the Germans in Germany and the millions of Germans in other parts of the orld realize how permanently they are being harmed? Among the many brave, clear-thinking, cultured Germans, are there not some with the courage and sato rid Germany and the world of this menace?

It is a task that should be handled by the Germans themselves for themselves, just as America, if it contained a disurbing factor, abhorrent to the world at should cleanse itself of it. The New Naval Treaty

N the three weeks that have passed since the signing of the new naval treaty in London, no important criticisms have been developed. On the contrary, there has been growing realization that the treaty is a substantial achievement, that, in fact, it may turn out to be the most useful of all the treaties dealing with armaments.

At first sight, of course, it would seem to be no treaty at all. Japan, Italy and Germany have not signed it. For those who have signed it, Britain, France and the United States, the treaty fixes no limitations on the size of their navies. Moreover, there is at every point in the agreement a clause permitting the signers to free themselves

There never was a treaty which seemed bind so few nations on so few points in so light a fashion. Yet a close study will ow, I believe, that this treaty binds all the naval Powers of the world at least as effectively, and probably mere effectively than the treaties which it replaces, and that t is as powerful a safeguard against a race of naval armaments as could now be erected

The principle of the treaty can best be understood by considering the Japanese claim. Under the old treaties, a ratio was fixed of 5 for Britain, 5 for America and 3 for Japan. The Japanese argued that they could no longer go on with a treaty which said in black and white that they had to have an inferior navy. Their pride would not permit it. So far so good. But then the Japanese went on to say that they desired "a common upper limit" for all navies. On inquiry, it turned out that the Japanese wanted the British and ourselves to reduce our navies to their level, or, failing that, to

let them build up to our level.

Now, in view of the fact that the British and ourselves are able to build much greater navies than Japan, the essence of the Japanese proposal was that we should renoun the naval superiority that we have and that we can maintain in order to make it possible for Japan to achieve a naval power relatively much greater than she has. In plain language, the Japanese proposal would have limited British and American sea power but would not have limited Japanese. proposal would have guaranteed Japan all the power she can afford by restricting Britain and America to much less power than they can afford.

This Japanese proposal made clear a fundamental fact about the whole business which had not been clearly realized before. Japan was the real beneficiary of the 5-to-3 ratio. For without it, the United States could easily build a navy up to a 6- or 7-to-3 ratio. So when the Japanese said they did not like the ratio, the American and British governments had the very good sense to say in effect:

If you do not wish us to restrict our power by treaty, we have no objection. We shall simply maintain, because we are able to do it, navies which are as 5 to 3 over yours, and in addition we shall reserve the right to build in even greater proportion if it seems to us necessary." In other words, treaty or no treaty, the ratios are going to be at least 5 to 3 because we are able to build five tons for every three tons that

Japan can build. None of this is written into the London treaty, of course, but this is the political decision that gives the London treaty its meaning and its force.

The agreements in the treaty itself are very neatly devised to fit this basic policy. Thus, as among Britain, France and ourselves, it is agreed that no cruiser of more than 8000 tons and no battleship of less than 17,500 tons shall be laid down before January, 1943. This so-called "zone of no construction" is intended to rule out the inention of some surprisin ship, say a 13,000-ton cruiser, which would completely upset all naval calculations and start a dangerous race of armaments. The agreement is no limitation upon our 10,000on cruisers because we already have all of that type that our navy thinks necessary.

The three Powers also agree to give one another four months' advance notice before they start building a new war vessel. This is a very useful agreement. Under the old treaty, any nation could build up to the limit without consulting any other nation. Here it is agreed that before any ship is begun, the other Powers will be notified, giving them the opportunity to raise any questions they may have. So while each is free to build what it chooses, except between 8000 and 17,500 tons, none of the three can build anything without explaining its inten-

This in itself is an excellent arrangement for discouraging naval competition among the three signers. But its real value can be appreciated only in conjunction with the repeated reservation throughout the treaty that none of them is bound not to build if it believes that "the requirements of the national security" are "materially affected by any change of circumstances."
In plain language, this means that if Ja-

pan, Germany or Italy starts to build or de vise some new naval weapons, any of the signers of this treaty notifies all the others that the apple cart is about to be upset. The nation which is challenging the status quo will then find that it has been asked to explain to the three strongest naval Powers just why it is upsetting the apple cart.

If this does not discourage the challenger, it leaves him with the choice of trying to compete with nations able to outbuild him and of incurring their common disapproval, or of entering into diplomatic negotiations to deal with his grievances. The treaty rests on the simple principle

that the strongest naval Powers retain their freedom to become even stronger but intend to use it to maintain their present, but no greater, relative superiority. Individually and collectively, they have the right and the power to maintain the status quo and make a naval race intolerably costly to the chal-

This is the iron hand in the velvet glove. The ratios are to be preserved. Yet since they are not stated in the treaty, there is no defensible reason why Japan, Germany and Italy should not eventually sign the treaty, too. They can have the equality they ask. There is not a word in the treaty which says they are not theoretically entitled to equal navies. If they do not sign, they have to say, in effect, that they wish to be free to build in secret surprising new types of war vessels.

The Germans cannot afford to say that to the British. The Italians cannot afford

On the other hand, if Japan signs, she gain the assurance that neither the Br nor ourselves will build beyond the ra she will have the benefit of full advance formation about our building programs she will not feel herself to be diplomatic

to get your name in the new telephone

If you want your name in the new telephone directory, there is no time to be lost.

Tomorrow the directory goes to press. It will be your last chance to order telephone service and get your name in the new book.

The new directory will be the telephone"Who's Who" of the city for months.

Your friends will look for your name there.

New acquaintances may search its columns for you.

Business acquaintances, customers, prospective employers, will turn to it when they want to get in touch with you.

To be in this book may mean much to you in pleasure, comfort and the general satisfaction of living.

Act now! Call or come to the telephone business office. Say, "I want a telephone."

War Veterans: - The U.M.S. "Buy Now" PLAN Does Not Require Waiting Until June. Ask About It

Today's trend is toward style in the kitchen. Gas ranges are styled in step with up-to-date America's idea of beauty, efficiency and convenience in the home. These compact ranges with their glistening porcelain finish look like beautiful pieces of decorative furniture.

But beauty alone didn't dictate these designs. Efficiency and convenience came before appearance. "Make kitchen work easier!" "Save time and effort!" "Reduce cooking costs!" These were the goals set before gas range designers and engineers. How well they achieved these goals you can see for yourself. Go to your St. Louis dealer and ask him to demonstrate the numerous features of the new gas ranges.

You'll appreciate the time and labor-saving devices that are standard equipment on all approved gas ranges. You'll readily see the advantage of their sturdy, compact construction. You'll marvel at the attractive models and the clever arrangement of cooking space designed to reduce kitchen effort to a minimum.

Here is one of the many new-style gas ranges that St. Louis dealers are offering in a sensational city-wide sale.

On a selected list, which includes 53 models of high quality gas ranges made by a worldfamed manufacturer, St. Louis dealers are offering from \$20 to \$50 trade-in allowance on old ranges. This offer is for a limited time only.

Other dealers are making special offers on many other makes of highly approved, fully automatic gas ranges, many of which are now being offered for the first time in St. Louis. Visit your dealer-examine the many new gas range models that he is showing. Take advantage of the special bargain prices during this sale. Thousands of new gas ranges have been sold in St. Louis during the past few weeks.

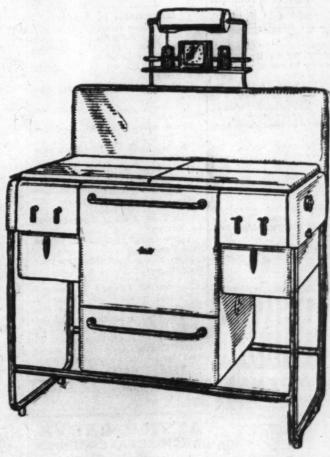

There's a reason for the popularity of the all-gas kitchen with its modern gas range, Electrolux air-cooled gas refrigerator and automatic gas water heater. Listen to the

Ask about the General Motors installment plan

In other words, this phenomenal car -in the way it performs, the way it travels, the way it handles, and the way it serves-has got what it takes!

It's got what it takes in buoyant, thrilling power that spells sudden and satisfying action in any man's language!

It's got what it takes in instant fingertip control that puts perfect mastery in the slightest woman's hands.

It's got what it takes in frugality of upkeep that makes many a six seem greedy when operating costs are matched.

And it's got what it takes-in smart style, in dependable Buick ruggedness, in built-in Knee-Action comfort, in safety you can sense and feel-to make it the standout car of the year!

Yes, any way you look at it this Buick is tops in its field, yet to find an automobile that's cheaper to buy, you have to go to the bottom-priced cars, and even then we think you won't save much for long.

Your present car-unless it's very dilapidated indeed-probably will cover the down payment on a spar-

\$100,000 CUT IN AWARD HALTS TRIAL, ADMITS

One of Six Defendants Pleads Guilty at Federal Court Hearing.

Trial of six men charged with vio-lation of the Dyer Act in transporting a stolen automobile to Des Moines, Ia:, last August was interrupted today to permit one of the defendants to change his plea from not guilty to guilty. was deferred by Federal Judge George H. Moore and presentation of testimony concerning the re-

maing defendants was resumed. William E. Combest pleaded guilty. His attorney, William Gallagher, appointed by the Court because he was unable to obtain one, made this announcement after the Government introduced a statement given by Combest to Depart-ment of Justice Agents. In the statement Combest asserted that he had been employed by a fellow de-fendant, Henry Bush, used car dealer at Mehlville, St. Louis County, and had altered the appearance of several automobiles and had helped change the motor and other numbers of cars at Bush's place.

The statement was introduced by Assistant District Attorney Henry G. Morris after Judge Moore sustained, over defense objections, the admissibility of evidence pertaining to theft of other cars than the one in this case, in which the defend ants were alleged to have partici-

pated. Other defendants were: Harry Kraus, used car dealer here; John Schaeffer, an employe of Kraus; Fred Thomas, Des Moines used car dealer, and Oliver Etzel. Yester-day, Don Curtis, three-time convict, who recently pleaded guilty of vio-lation of the Dyer Act in transporting another machine, testified for the Government, mentioning all the defendants.

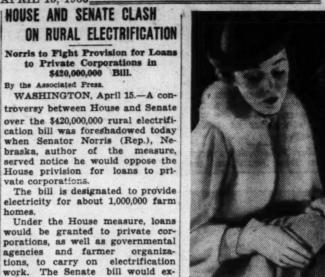

Summarized, Curtis' story follows: He worked for Bush and at Bush's instruction chiseled motor numbers off the coach taken to Des Moines and other machines. He, Bush, Etzel and a Negro employed by Bush chose the coach for theft July 19 and the Negro drove it away. Later Curtis saw it at Bush's place. Still later he took the coach and Combest took another car from Kraus' establishment to Des Moines, delivering them at Thomas' garage, but Combest drove the coach about 15 miles. Etzel accompanied them in another car. Afterwards, Curtis concluded, he wrote a letter, in the presence of Kraus, to a man who bought the coach in Des Moines, and Schaeffer signed the letter.

JAPANESE MILITARY AGENTS **BUSY AGAIN IN NORTH CHINA**

Nanking Sources Say Agitation De creased After Mutiny in Tokio Last Feb. 26.

NANKING, April 15.-Chinese official sources said today the activity of Japanese military agents North China, alleged to be directed toward seeking independence for that region, suddenly has been re-

They said the agitation decreased after the mutiny of February 26 in Tokio, but that this relief "was about over."

A Nanking offical said: "No new incidents have occurred and Japan has presented no new demands, but we do not expect the Northern peace to continue much longer." Authorities declined to enlarge

these statements other than to say, "Generalissimo Chiang Kai-shek has departed on a tour of Western and Northern China to visit the danger spots personally."

Corporation Reports and Mid-Week Industrial Reviews Included in News of the Day.

NEW YORK, April 15 .- Slow but ersistent buying in specialties ought rallies in today's stock market ranging from fractions to two points, generally, and five or more n scattered instances. The turn-

over was around 1,500,000 shares. Rubber company equities were given early attention and some of the low-priced power and light issues acheived popularity. Purchasing orders from London in these groups were reported by commission houses with foreign connec-

to soften the cheers in brokerage quarters, although hopes were exshaded some extreme gains. Among the widest advances were

those of Philip Morris, Douglas Air craft, Westinghouse, American Can, Case, Corn Products, du Pont, Columbian Carbon, McKeesport Tin-plate, Bendix and Goodyear. The Packing division came to life with Wilson & Co. common and preferred, Armour and Swift getting up fractions to a point or so.

Others participating in the up turn included Goodrich, U. S. Rub ber, American Water Works, Electric Power & Light, General Motors, Chrysler, Union Pacific, Delaware & Hudson, American Telephone, Western Union and U. S. Steel. Foreign currencies were narrow

elation to the dollar. At Chicago wheat pushed ahead o close 1 to 1½ cents a bushel high-r. Corn firmed ½ to %. U. S.

ernment bonds improved.

French franc were unchanged at \$4.94% and 6.59% cents, respec-Cotton ended 15 cents to 45 cents

a bale higher. News of the Day.

Many traders were said to have adjourned to neutral territory ending a clarification of the Rhineland and Ethiopian problems.

Hopes for the railroads were re

vived by estimates that Great Northern, for the first three months of this year, would show net earnings of around \$400,000 against

Results of the forthcoming French elections were also being awaited for indications as to whether a sizeable slice will be cut out of the French franc.

While it was believed first quarter profits of a number of important companies would fall somewhat below those of the same 1935 period, the continued progress in the rate of automobile/production, electric power consumption, carloadings, steel mill activities and retail sales pointed to a bright second quarter.

1926 averages equal 100.

"Today the six are thousands," said Bishop Byrne, "and the log hut of the little French Village has become the stately convent in the osom of a great city. Its walls bear marks of time and storm and fire, but plainly reflect the beauty of the lives within."

He told of the schools founded by the sisters, of their work in behalf of orphans. Negroes, the deaf and dumb, and their nursing service during the yellow fever plagues.
"Grand as all this work has

been," Bishop Byrne continued, "it is only an incident to the great work for which the Sisters of St. Joseph give their lives. To teach was their first duty, and in it they have excelled. Whether they carry on among the still rude Indians of the North and Southwest, or whether they stand in the halls of the new Fontbonne College, theirs is the divine task to gem youthful minds with the genuine jewels of arts and sciences, and to bind hearts with golden bands of Christian virtue.'

Solemn benediction services were to be conducted at the motherhouse of the order, 6400 Minnesota avenue, this afternoon at 4 o'clock Tomorrow will be "Alumnae Day" when graduates of St. Joseph's Academy and Fontbonne College will be guests at the motherhouse There will be a solemn high mass at 10 o'clock, luncheon at noon, and benediction in the afternoon.

Warrant Dismissed for Lack of Evi-Her Possession.

A warrant charging burglary and arceny against Mrs. Clara Richards, 22-year-old mother of an year-old child, was dismissed Belleville yesterday by State's Attorney L. P. Zerweck because of

lack of evidence. Mrs. Richards was arrested April 6 when five articles of clothing found in her possession were iden-tified by Mrs. Fred Souttar, wife of a Belleville movie theater manager, as having been taken from me in a burglary March 7. The articles were among five suitcases full of women's clothing which had been found in Mrs. Richards' room at 4416 Lindell boulevard when po-lice had arrested her two weeks before. She was living at 3902 Here-ford street when she was rearrested. She denied any knowledge of the robbery, and said the clothing was given to her by a man friend, a WPA worker, whom police are seek-

work at 18 and one age stop work at 65.

Youth should have its first 18 years at least, for exercise, study, happiness. Sixty-five might be a good age to stop dull routine work for wages, but no man would want to stop real work until death, except that six months to look around this side of the grave might be acceptible. Goethe finished the second part of Faust when he was just 12; and one of the ablest French writers, starting a new prose style, wrote nothing until at 26 he wrote the life of St. Louis at the request of the King's widow. Within half a century 25 years have been added to the average lives of old men; nobody would want those old men; nobody would want those

man, inventor of the combing ma-chine, who could spin one pound of otton into a thread so fine that it rould stretch 334 miles. Now, the du Pont company produces a fiber, one-third thinner than the product of the silk worm. One pound of this new "thread" would stretch from he Atlantic to the Pacific ocean. The performance will not eclipse the silk worm entirely, for that narvelous creature produces a thread of greater tensile strength than any other—no thread of steel, of equal size could equal the strength of the silk fiber.

In the murder of an unfortunate young woman, New York detectives think they see, at last, "the perfect crime," one in which the perpe-trator cannot be identified.

Fortunately, there is no perfect crime, except in the imagination of the criminal or the detective story writer, because criminals are dull, cannot keep their mouths shut, are vain, boast, and the electric chair gets them. Also, they jump when a hand is laid on the shoulder; that helps detectives, and criminals are betrayed by fellow

Serving a hot and substantial main dish in casserole has several advantages. The fact that food keeps hot longer when served in dish in which it was cooked is one reason for buffet supper service. Another advantage is its convenience in time of preparation. The casserole dishes given here can be prepared several hours in advance and then need only to be put in the oven to bake later.

My dear Mrs. Carr: UST another letter from a dumb one. I like a man very much, sit he is about 16 years older than I When I am with him alone, he is so sweet and kind. But when others are around, he is so terribly different. So this makes me feel at times that he really loves me, but again I feel he doesn't care.

I know you will say he is much so old and that I am foolish. I try to make new friends and suced: but they all seem so different and I always come back to him.

There is always a touch of glamour to a young girl, in the attentions of an older man. He seems tentions of an older man. He seems tantions of an older man. tentions of an older man. He seems so sophisticated (and probably is) all means, live to yourself.

Various Types Of Lies Used By Children

An Idea the bride must look her very best on her wedding day but a wedding gown, that after the ceremony can be changed into a stunning formal, is certainly most practical.

Some Are Mere Flights of Imagination, Others Come From Fear.

By Angelo Patri

HILDREN do tell lies if by lies not literal truths. These lies are tic, creations of the mind that is yearning for a flight beyond ac-

tuality. That flight is necessary for the health of the mind and unless the child's environment offers relief from the drabness of daily routine he is like ly to invent anhis imagination. If imagination he is acts that are startling, such as setting fires, hid-

SYNOPSIS:

MILICENT BATES is so much in love with JOHN MURDOCK that she has forgiven his virtually jilting her. On what was to have been their wedding day John admits that he wants, instead, to spend the money that was to have financed their marriage to complete the law course he had given up years ago, Milicent had insisted on not going through with the marriage, but after a stormy period, had become re-engaged to John.

See Whether His Opinions Agree With Your Own

AUTHOR'S NOTE: These an men are given from the scientific soint of view. Science puts the rights a organized society above the rights el individuals.

This old question is discussed anew by Dr. H. Bannister in the new edition of "General Experinew edition of General Experi-dental Psychology," edited by Dr. Carl Murchison—a necessity to professional spechologists. He says (paraphrased) when we say we hear "sounds" we when we say we hear southed we usually mean we experience certain enusions through the auditory nerves. Yet these so-called "sounds" have no real existence outside ourselves because sside of ourselves all is quietnessnothing but bodies in vibration. If nothing but bodies in vibration. If these vibrations are of a certain amplitude and frequency we experience the sensation of "sounds." Of course from custom we speak of hearing the sound of thunder, etc., but no real nerves perceive these air waves as

EXPLANATION OF YESTERDAY'S CARTOON

FROM GANGSTER TO CHIEF JUSTICE—Sir John Popham of Wellington, Somersetshire (1531-1607), was studying for the bar at Middle Temple, when the took up with bad company and became an addict to drink and gambling. In time he became a highway robber. At the head of a band of desperadoes, he would sally forth at night and rob travelers of their money and valuables. He continued as a robber long after he became a member of the bar. He reformed after he married, and from then on had a great legal career, which carried him to the rank of Chief Justice of England (1592). He was known as "a hanging judge," from his pitiless attitude to malefactors. He was particularly severe towards highway robbers, although his own past might have disposed him a little in their favor. He presided at Watler Raleigh's first trial for treason, and pronounced the first death sentence against Sir Walter. TOMORROW: LOVE'S YOUNG DREAM.

A Southern college didn't want its students thumbing rides. The boys were strung along a road for miles like sparrows on telegraph wires. So the college started a thumbing station.

The thumbing station is the same as any other railroad depot. There is a ticket window and a baggage agent.

There is also a train announcer who wises up the boys thisaway:

"Flivver number 11,683,192 arriving from the north on track 18. On time. Destination is Kansas City and points west if gasoline holds out. Dinner will be served at wayside Gulp and Strangles. Room in the rumble for two guest artists. If passenger conditions improve we will put on a conditions improve we will put on a trailer. The last hitch-hiker who stuck out is thumb in Idaho had it bitten off a snowbound motorist who hadn't ten in three days. We have already told you about

the energetic hitch-hiker who painted his thumb with radium so he wiggle rides at night. But we never heard of a thumbing

station before. The college is named Clemson and it's in the Carolinas. It wouldn't be a bad idea if the Northern and Western universities added a
